The team at Fort Wellness Counseling is excited to announce the recent move into the new Restore + Revive Wellness Center with Dabney Poorter, FNP, and Taylor Dukes, FNP, who recognize the importance of mental health and taking care of ourselves.

This move has enabled the Fort Wellness group to join other amazing providers that focus on functional medicine, which is all about finding the root cause of a problem. This expanded team will offer a path toward preventive health and healing tailored to your personal needs. Pulling from the vast knowledge of both conventional and functional medicine, R+R offers a comprehensive approach through a variety of healing modalities and detoxification services.
